

Medicare Reimbursement:

Cindy Dehan, MS,PT DBA Active Marin Physical Therapy agrees to bill Medicare for your services, and if secondary insurance exists with the exception of Medi-Cal we will bill them as well. I am not a Medi-Cal provider and do not accept Medi-Cal as secondary insurance.

Medicare has an **annual deductible** in the beginning of each year, payable by the patient and in some cases is picked up by the secondary insurance.

In addition to the deductible there is a **coinsurance** owed for all allowed services. This amount is what Medicare deems to be the patient's responsibility, and a percentage is usually paid by secondary insurances.

In the absence of secondary insurance the **coinsurance and deductible** are your responsibility. Medicare guidelines mandate that I must collect the patient deductible and coinsurance for services. Co-Insurance % collected at time of service is \$25.00.

I have read and understand my financial responsibility, that in the absence of full reimbursement by my secondary insurance (if any) I may be billed for the deductible, and or coinsurance portion of my services.
