

Medicare Reimbursement Form

Active Marin Physical Therapy agrees to bill Medicare for your services, and if a secondary insurance exists, we will bill them as well (except for Medi-Cal). Active Marin is not a Medi-Cal provider and we do not accept Medi-Cal as secondary insurance.

Medicare has an annual deductible, payable by the patient. In some cases, this deductible is covered by a secondary insurance. In addition to the deductible, there is a co-insurance owed for all allowed services. This amount is what Medicare deems to be the patient's responsibility, and a percentage is usually paid by secondary insurances.

In the absence of a secondary insurance, the co-insurance and deductible are your responsibility. Medicare guidelines mandate that Active Marin must collect the patient deductible and co-insurance for services.

I have read and understand my financial responsibility; that in the absence of full reimbursement by my secondary insurance (if any), I may be billed for the deductible and or co-insurance portion of my services.
